love emergency™

Allotrope of carbon

Generic Diamond.

Please read all of this leaflet carefully before you start taking this treatment because it contains important information for you.

This treatment is available without prescription, for you to treat a problem without a specialist's help. Nevertheless, you still need to use your treatment carefully to get the best results. Always take this treatment exactly as described in this leaflet. Then, if you need more information or advice, ask your jeweler or gemologist.

STATEMENTS MADE IN THIS LEAFLET HAVE NOT BEEN EVALUATED BY ANY DRUG ADMINISTRATION AGENCY OR AUTHORITY. LOVE EMERGENCY™ IS NOT INTENDED TO DIAGNOSE, TREAT, CURE OR PREVENT ANY DISEASE. LOVE EMERGENCY™ IS JUST A REAL DIAMOND NICELY PACKED. NEVER TRY TO SWALLOW/EAT, CHEW OR SUCK DIAMONDS.

Keep this leaflet, as you may need to read it again.

What is in this leaflet:

1. What love emergency™ is and what it is used for
2. What are the benefits of love emergency™
3. What you need to know before you take love emergency™
4. How to take love emergency™
5. Possible side effects
6. How to store love emergency™
7. Contents of the pack and other information

1. WHAT IS LOVE EMERGENCY™ AND WHAT IS IT USED FOR

love emergency™ or Morning-After Carbon is an emergency love relationship fertility treatment. love emergency™ belongs to a group of treatments called Hormonogems. These treatments are used to boost love relationship after unexpected or uncontrolled love story or in case of failure of usual seduction methods.

love emergency™ is prescribed for adults and adolescents aged 14 years and above for the symptoms of: medium to severe unexpected or uncontrolled attraction, romantic and/or passionate love, love sickness, obsessive love, falling in love, fun loving morning, Romeo and Juliet symptoms or marriage proposal.

This treatment contains one tablet (single dose) of certified lab-grown diamond.

2. WHAT BENEFITS EXPECT FROM LOVE EMERGENCY™

The below list includes the more common benefits of your treatment. The benefits vary from patient to patient and can depend on the dosage given:

- boosts love, happiness, joy and vitality in the relationship
- increases passionate love, romance and intimacy
- unlocks hidden feelings, emotions and passions
- reduces doubts, fears and uncertainties in the couple relationship
- improves libido, sexual activity, orgasms and in some cases, increase the chances of having a baby
- increases the chance of successful marriage proposal
- improves imagination and creativity, and of course the brilliance of the skin at the end of the treatment

Caution: this treatment has been prescribed for you. Please do not pass it to others. It may harm them, even if their symptoms are the same as yours. If you notice any benefits not listed in this leaflet, please tell your jeweler.

3. BEFORE TAKING/GIVING LOVE EMERGENCY™

Do not take love emergency™ if you:

- are allergic to love or custom-made jewellery
- are definitely allergic to your partner

Take special care with love emergency™ if you:

- have serious love heart problems. Treatment such as love emergency™ can increase the risk of heart palpitations
- are engaged in extramarital relation(s) or with extra partner(s)

Interaction with love emergency™ :

Before you use love emergency™, talk to your jeweler if you are taking or have recently taken any other diamond jewellery treatment. Some treatments can reduce or suppress the effectiveness of love emergency™.

Other warnings:

- this treatment may cause dizziness in some people. If this happens, do not drive, use or operate machinery
- love emergency™ must be used only occasionally and should not replace a regular healthy love relationship
- this treatment can be addictive

Serious warnings:

The use of love emergency™ does not protect against sexually transmitted diseases and cannot replace the necessary precautions and measures to be taken in case of risk of transmission. Always use a condom if you are unsure of your partner(s) sexual health.

Consult your jewellery professional before using love emergency™ if any of the above mentioned conditions concern you or if you are not sure whether you should start taking this treatment.

4. HOW TO TAKE/USE LOVE EMERGENCY™

Always take/use love emergency™ as described in this package leaflet. If you do not understand the instructions or are not sure, ask your jeweler or gemologist for help.

Dosage:

love emergency™ consists in a single dose treatment of 300, 500, 700 or 1000 millicarats of certified lab-grown diamond.

Methods of administration:

FOR EXTERNAL USE ONLY.

The treatment should be given as soon as possible, preferably no later than 72 hours after love or the onset of symptoms. The sooner you take love emergency™, the more effective the treatment is likely to be.

There are two methods of administration:

Method A: Immediate Release Treatment or short-acting.

Immediate Release Treatment is a method of administration that is intended to release all the active ingredients and benefits within a short period of time. Short-acting provides extremely fast result:

- a) take your single dose of diamond with you and visit your local jewellery store
- b) choose a setting that fits your own personal style and ask your jeweler to set your diamond on it
- c) get in a few days your dream piece of jewellery

The treatment should be completed in 1 or 2 weeks maximum.

Method B: Sustained Release Treatment or long-acting.

Sustained Release Treatment is a method of administration which gets prolonged effect and which can reduce the number of treatments taken during one's lifetime:

- take your single dose of diamond and imagine a unique piece of jewellery
- contact a jewellery boutique or designer to help you to create your exclusive design
- enjoy this unique and creative experience
- get in a few weeks an exclusive one-of-a-kind diamond jewellery

The Treatment should be completed in 4 to 12 weeks maximum.

Duration of the treatment:

Once your diamond jewellery is ready, wear it immediately without time limit. Talk to your jeweler or gemologist if your symptoms do not improve.

Additional tips at the beginning of the treatment:

In order to optimize the effect of the treatment, both partners must be present during the consultation with the jeweler or designer.

In case of emergency and if no jeweler can be reached, you can wear temporary a Waiting Ring®. The emergency ring can be found inside the box holder with the leaflet.

5. POSSIBLE SIDE EFFECTS

Like all treatments, love emergency™ can cause side effects, although not everyone gets them. Sometimes they are serious, most of the time they are not:

- rapid heartbeat, palpitations, breast tenderness, tearfulness, dizziness, nervousness, excitability, anger, confusion, difficulty sleeping, tremor, swelling, stomach discomfort, dry mouth or thirst,
- feeling unusually hot
- smiling, giggling, sudden outburst of laughter or crying
- in rare cases, nausea, vomiting and urticaria.

You may need specific attention if you get some of the side effects. If any of the side effects gets serious, or if you notice any side effects not listed in this leaflet, please tell your jeweler, gemologist or contact directly Generic Diamond.

Overdose and Dependence Symptoms:

Seek emergency attention if you think you have used too much of this treatment. love emergency™ can cause serious dependence to the active substance, the allotrope of carbon or diamond.

6. HOW TO STORE LOVE EMERGENCY™

This product must be stored in a safe area or safe deposit box. Pharmacy box is not a safe place. Keep out of the sight and reach of children.

It is recommended to keep the blister in the outer carton in order to protect the treatment. Treatment should never be disposed of via wastewater or household waste. Ask your jeweler how to dispose of treatment no longer required. These measures will help to protect your investment.

There is no expiring date.

7. FURTHER INFORMATION

What does love emergency™ contain?

love emergency™ contains one dose of allotrope of carbon (diamond) grown in laboratory and weighted at 300, 500, 700 or 1000 millicarats (0.30 carat, 0.50 carat, 0.70 carat or 1.00 carat).

The active molecule is the Carbon and the chemical formula is: C. Each carbon atom is bonded covalently to four neighbours arranged tetrahedrally around the central atom to give birth to the diamond.

For more details about the composition of your treatment, please consult the diamond grading report. It contains important information.

Information and Education:

A Generic Diamond (also known as synthetic diamond, lab-grown diamond, laboratory-created diamond or cultured diamond) is a diamond produced in an artificial process, as opposed to mined or natural diamonds, which are created by geological processes. Both have the same physical, chemical and optical properties, and have the same brilliance, sparkle and fire. Both are real diamonds.

Generic Diamond treatment is 100% conflict-free and environmentally friendly. The term "generic" describes a more cost-effective version of a well-known brand name diamond treatment.

Who makes the treatment?

Your treatment is designed and packaged by Generic Diamond Pte Ltd. The marketing authorization holder is Generic Diamond Pte Ltd.

Where to go for further information?

Additional information is available at the website www.genericdiamond.com. If you have any queries or comments about your treatment or any other generic products, please contact Generic Diamond.

Special Warning

The information provided in this leaflet are provided tongue in cheek and for humoristic purposes only and should never be taken seriously or be considered healthcare advice. This product is not medicine, cosmetic or healthcare product and not intended to treat, cure or prevent any disease or health condition. This product is a lab-grown diamond for jewellery making only. Never try to swallow/eat, chew or suck diamonds. In case of accidental ingestion, contact a physician and seek professional medical assistance immediately.

Always contact your licensed practicing healthcare professional for specific advice, information and services regarding your individual healthcare needs.
